

I listen to the local K-Love station any time I'm in a car-here at home or when I'm traveling. K-Love is one of only two stations in the Omaha area that broadcast Christian programming. The other one has a lot of talk radio and commercials so in effect K-Love is the only station I can count on to continuously be playing music that will encourage me in my walk with Christ. I don't believe that just because K-Love isn't produced locally that it's not providing a valuable service to the local community. If K-Love is replaced by a LPFM station Omaha will lose a valuable resource for hearing the word of God. Everyone needs encouragement at some time in their life, K-Love is always there - broadcasting music that will lift your spirits.
